

Supreme Court of Florida

No. AOSC10-48

IN RE: COMMISSION ON TRIAL COURT
PERFORMANCE AND ACCOUNTABILITY

ADMINISTRATIVE ORDER

The Commission on Trial Court Performance and Accountability was established in 2002 for the purpose of proposing policies and procedures on matters related to the efficient and effective functioning of Florida's trial courts, through the development of comprehensive performance measurement, resource management, and accountability programs. This charge responds to mandates that emanate from section 19, Article III, Constitution of the State of Florida; Chapter 216, Florida Statutes; and the judicial branch's long-range strategic plan.

Court committees are a vital component in the governance of the judicial branch. Committees established by the Supreme Court assist in the development of policies and operating procedures that enhance the administration of justice. In recent years, as a result of the global recession and the subsequent decline in state financial resources, the Florida State Courts System has sustained significant reductions in operating funds and staff positions. Even given the demanding fiscal

times we are in, work of the Commission on Trial Court Performance and Accountability must proceed.

The Commission must, however, be cognizant of the limitations on the resources available to support its efforts as it develops a work plan that will accomplish, to the best of the Commission's abilities, the important tasks assigned in this administrative order. Accordingly, the chair should use discretion in the establishment of subcommittees that require operating funds and staff support. With regard to meetings, the Commission on Trial Court Performance and Accountability should strive to utilize the most economical means appropriate to the type of work being accomplished.

During the next two years, the Commission is expected to perform the following tasks:

1. Consistent with Goals 2.1, 2.2, 2.3, and 5.1 of the Long-Range Strategic Plan of the Florida Judicial Branch 2009-2015, identify the information, by case type, that needs to be accessed and tracked by judges, case managers, and other court staff in order to move cases efficiently and effectively through the trial court process. Additionally, identify the key caseload and workload information needed at the circuit and statewide reporting levels essential for performance monitoring and resource management. The Commission

shall collaborate with the Florida Courts Technology Commission and submit a report to the Supreme Court with related recommendations on or before July 1, 2012. The Court Statistics and Workload Committee of the Commission on Trial Court Performance and Accountability shall establish uniform data definitions, guidelines, and standards for data collection and reporting necessary to produce consistent, automated trial court case management statewide, in accordance with the recommendations of the Commission.

2. Through the Court Statistics and Workload Committee, continue to address policy issues as necessary to maintain the integrity of the Summary Reporting System, the Weighted Caseload Model, the Uniform Data Reporting System, and other data collection efforts related to trial court activity. The Committee shall provide direction for addressing special data collection needs requested by the Florida Legislature or other government bodies and guidance in the development of standardized reporting systems for the trial courts. The Committee shall continue to provide policy guidance related to data collection and analysis pertaining to trial court activity, workload, supplemental resources, and performance measures.

3. Continue with the development of standards of operation and best practices for the major elements of the trial courts with a specific focus on court interpreting services.
4. Continue to provide support and assistance to the trial courts with regard to implementation of standards of operation and best practices approved by the Supreme Court.
5. Continue to propose judicial branch responses to any statutory requirements and requests by the Florida Legislature and the Office of the Governor related to trial court performance and accountability.

The following individuals are appointed to serve on the Commission for terms that expire on June 30, 2012.

The Judicial Branch Governance Study Group was established in the fall of 2009 and directed by the Supreme Court to undertake an in-depth study of the current governance system of the judicial branch of Florida. There is a possibility the results of that initiative may necessitate a re-evaluation of this administrative order, at a future date.

The Honorable Terry D. Terrell shall serve as chair through June 30, 2012. The Honorable Jorge Labarga shall continue to serve as the Supreme Court's liaison to the Commission. Staff support will be provided by the Office of the State Courts Administrator.
